GILGAMESH: Gilgamesh turns random tiles into Wilds.

ISHTAR: Ishtar removes the low-paying symbols from the screen, cascades and the first respin brings only high-paying symbols to the screen.

ENKIDU: Enkidu destroys all symbols in an X pattern, thus issuing a cascade and respin. Scatter Symbols are not destroyed by this feature.

TOWER BONUS: Three Book Scatters activate the Tower Bonus. The first three levels of the tower present a stake multiplier win or the possibility to climb up the tower. The multipliers increase with the level, the highest being on the fourth level.

FREE SPINS: 3 Free Spins Scatter symbols award 7 Free Spins. 2 further Free Spins are awarded for each additional Scatter over the 3 minimum required. In Free Spins every time a character feature is executed a global win multiplier increases. The multiplier doesn't reset until the end of the bonus round. Each Free Spins Scatter symbol that lands during the Free Spins bonus awards 1 additional Free Spin. At the beginning of every round of Free Spins the first section of the Feature Bar gets filled, granting at least one character feature every Free Spin.

CASCADE AND RESPIN:
Symbols forming wins disappear and new fall, giving chance for new wins.
