## FEATURES

### Lucky Scatter Symbol

Select a high-value symbol to serve as the lucky scatter in the game. This particular Lucky Scatter Symbol has the flexibility to be altered during gameplay. When a single Scatter emerges on a reel, it awards a multiplier for the overall base game winnings. In the case of two Scatters appearing on a base spin, their respective multipliers are combined. If 3, 4, or 5 Scatters appear, they grant 10, 15, or 20 Free Spins, respectively.

### Free Spins

Money Symbols land with various cash values attached, and you collect these Money Symbol prizes when you land the Scatter on the same spin. When more than one Scatter lands in a spin, Money Symbol prizes are multiplied by the number of Scatters landed. Every Scatter you land will also be collected in a meter above the reel set, and every 4th Scatter collected triggers extra Free Spins and increase the progressive multiplier.

The multiplier increases:

- 4 Scatters – 2x
- 8 Scatters – 3x
- 12 Scatters – 4x
- 16 Scatters – 10,000 x Bonuz Prize is won
