FEATURES

Scatter:

In the base game, if a single scatter symbol appears on the reel, the book symbol will open to show either a high or low-paying symbol. This instance will then be transformed into a Wild symbol. If two scatter symbols are revealed and they display the same symbol, all instances of that symbol will become expanding wilds. If three scatter symbols appear, an additional random multiplier will be applied.

Free Spins:

3 or more Scatters trigger 8 Free Spins. Additional Free Spins can be won by landing a Scatter during the Free Spins session. Free Spins are played with the bet of the last regular round.

In the Free Spins round, if one or more scatter symbols appear, they will reveal a specific symbol, and all instances of that symbol will become expanding wilds. If two scatter symbols land, an extra random multiplier will be added.
